

## RIVALRY TANGLES HAITIAN PROBLEM

Political Contest for Presidency Will Complicate Situation, Thinks Admiral.

### IDLE ALSO ARE MENACE

The Connecticut Sent to Haiti with Marines—Hospital Ship Likewise Dispatched.

While no further armed resistance has been encountered by Rear Admiral Caperton, in command of the American forces of occupation at Port au Prince, Haiti, he reported yesterday that the political situation is fast becoming most complicated.

Factions already have developed in connection with efforts by the Haitians to form a new government. Twelve men to whom a committee in Port au Prince offered the presidency refused it, and the committee finally decided in favor of the rebel, Dr. Rosalvo Bobo, who is with his men in the north of Haiti.

In view of conditions that would be sure to ensue from the rivalry of Dr. Bobo and other aspirants for the presidency, it is doubtful if the United States will permit the choice of a president at this time. It is certain that with American forces in occupation of Port au Prince fighting between rival factions will not be permitted. It is not seen how this can be prevented, however, if the Haitians are permitted to install any one in the presidency.

**Will Strengthen Position.**  
Admiral Caperton is proceeding to strengthen his position at Port au Prince. The Connecticut left Philadelphia yesterday with nearly 500 marines on board, and will pick up 300 more from Norfolk off the Virginia coast today. The Navy Department has ordered the hospital ship Solace from Newport, R. I., to Port au Prince.

Admiral Caperton reports he is continuing the task of disarming the entire population of Port au Prince. As there are more than 100,000 people in the city, it is a big task.

Another element in the situation which Admiral Caperton regards as dangerous is the fact that there are thousands of idle men in the city. The Haitian Congress yesterday in an American firm engaged on public works in Port au Prince, ordinary employs 1,200 men, but its operations have been suspended owing to the government being without funds. At present there is no government, and many other customary activities of the city have stopped.

"Revolutionary committee declared for Rosalvo Bobo," reported Admiral Caperton yesterday. "The selection of this committee, however, was made only after an attempt to get twelve other

prominent men to accept the candidacy. These other men would not accept. The plot party at Cape Haitien has declared for Sacuran. In view of the conditions almost sure to follow the rivalry between these candidates and their adherents in various parts of the country, political conditions are very uncertain.

"Another dangerous element in the situation may result from the presence of a large number of unemployed men in and around Port au Prince."

## OLDS ESTABLISHES FOREIGN DEPARTMENT

Will Prepare to Handle Big Volume of Foreign Trade—Inquiries Pouring In.

While practically the entire output of the Olds factories up to the present time has been required to meet the remarkably heavy demands for domestic consumption, and the company has been hindered from accepting any large volume of foreign business, it is stated by Sales Manager J. V. Hall that plans are under way for greatly enlarging the activities of the Olds Motor Works in foreign countries. One of the preliminary steps has been the establishment of a foreign department, which has been put in charge of a man experienced in handling foreign sales, W. von Zimmermann. The large volume of inquiries received from foreign sources, many of them cable messages asking for territories, precedents that the Olds Oldsmobile has struck a popular cord among foreign agents and renders necessary some provision to supply the growing market for the cars outside the confines of this country. Sales Manager Hall states that the Olds Company, although unable to keep pace with the domestic demand, expects soon to reach a point in their production of cars where they can set aside a percentage of their output for foreign consumption.

"We could have done a very extensive foreign business months ago had it not been for the shortage of cars, which prevented us from taking on new dealers in foreign countries," asserts Mr. Hall. "We considered it good business to postpone any expansion in our foreign market until the demand for our cars in this country had been provided for. Dealers from many countries, including South Africa and Great Britain, have visited the factory in person to negotiate for our line since our 1916 announcement was made public."

**Skull Cracked by Collision.**  
Charlotte Howard, colored, of 1317 S street northwest, was seriously injured yesterday in an automobile collision with a car driven by a man named Arnett Talbert, colored, of 1740 L street, skidded following a collision with the automobile of Daniel Elmer, colored, of 725 Quincy street northwest. The Howard woman was standing on the curb as Taylor's car swerved about and crashed into a tree. Talbert was injured slightly in the collisions.

## Stories Told of German Crown Prince Prey on Princess' Mind

Reports that Kaiser's Eldest Son Was Relieved of His Command and Stories of Alleged Gallantries Have Been Extensively Circulated.

Berlin, July 31.—The wife of Crown Prince Frederick William, who recently has given birth to a daughter, is reportedly distressed by the calumny on her husband which have originated in Paris and been extensively circulated throughout enemy and neutral countries.

These stories have ranged from canards to the effect that the crown prince was ill, in disgrace, and relieved of command of the army in the Argonne by order of his imperial father, to circumstantial accounts of the young prince's appearance sitting in the upper windows of a captured French chateau with a certain vivacious air on his lap.

While it is safe to assume that not even a considerable minority believe such wild tales in Germany, these slanders, added to her duties as a mother and her anxiety over the safety of the crown prince, whose headquarters are frequently visited by French bomb-dropping aeroplanes, have naturally preyed upon her mind.

It has fallen to the task of the crown prince to face with his troops the immensely strong French fortress of Verdun, and he has not had the opportunity to make those quick marches and spectacular engagements which have added lustre to the fame of Von Kluck, Hindenburg, and Mackensen. He has confined himself closely to his duties. Shortly before the arrival of their baby girl he visited the crown princess, but he has not yet seen his new offspring.

Probably some of the stories concerning the crown prince have originated with his notorious mother-in-law, the Dowager Grand Duchess of Mecklenburg-Schwerin, by birth the Grand Duchess Anastasia of Russia, who is persona non grata at Petrograd no less than at Berlin.

The German Emperor and his eldest son are special objects of her sharp tongue, probably because she has never been allowed to cross the threshold of the royal palace in Berlin since her daughter's marriage, although she has made several attempts, which were frustrated with the active support of the royal servants.

For a consideration of \$30,000, Samuel Goldenberg and Charles R. Moran, as trustees, sold to William J. Brower, the property at 202-204 F street northwest, a 30-story building, the site of the old Federal Reserve Bank building.

The loan market also was active, passing the million mark. The exact figures for the week were \$1,021,824.54. This sum was secured on 45 lots at an average interest rate of 10 per cent. aggregate of \$781,500.30 was made in straight loans. The sum of all the notes given for deferred purchase money was \$18,000.34. Building associations advanced to members \$72,600.

**WAR BOOSTS EVEN HAIRPINS.**  
Chicago, July 31.—The impetus which the European war has given to the steel and iron industries is passing over to the hairpin industry. The hairpin industry in Chicago, which formerly supplied the world with most of the millions of hairpins it uses daily, are making bombs, have practically created a new industry in Chicago, an instance of the far-reaching effects of the boom in steel.

One hairpin company is completing a new factory building, and within three months will be turning out 12,000,000 hairpins a day. A large part of them will be sold in the European centers.

The relation between war and hairpins would normally be quite remote, but the fact that plants of Germany, England and France, which formerly supplied the world with most of the millions of hairpins it uses daily, are making bombs, have practically created a new industry in Chicago, an instance of the far-reaching effects of the boom in steel.

When Glands Swell Blood Needs Attention  
Even a Sweat Gland May Result in Severe Consequence.

In our intricate body the use of S. S. for the glands has a most ramified influence. We little realize our glandular system. It may be a tiny bulb no bigger than a pin point, and yet if a disease gets into it, there is a tremendous swelling. It becomes a boil, a carbuncle, it may be a "blood poisoning," and it is a source of continuous misery if not checked. Many of the most excruciating forms of torture begin with the swelling of a tiny gland, caused by a disease germ. And it is S. S. S. that spreads throughout the blood circulation to prevent such conditions. Or if a source of pus has started, S. S. S. will soon put the blood in such a state of health as to overcome the tendency to glandular swellings. It is a natural medicine for the blood, just as essential to health if the blood be impure, as are the meats, fats, grains and sugars of our daily food.

It contains one ingredient the active purpose of which is to stimulate the exchange of new flesh for dead or waste matter.

Get a bottle of S. S. S. today of any druggist, and if your case is stubborn, write to the Medical Adviser, The Swift Specific Co., 144 Swift Bldg., Atlanta, Ga. This department is in charge of a noted physician.

**Formal Order Tomorrow.**  
The formal order promoting Daniel J. Donohue to the position of secretary of the District of Columbia Department of Public Works will be issued tomorrow. Dr. William Tindall, present secretary, who has held the position for thirty-seven years, is given lighter duties at his own request.

**Will Preach at Camp Meeting.**  
Rev. C. I. Withers will preach at 11 o'clock this morning and 8 o'clock to-night at the camp meeting being held at Delmar, under his direction. The services will continue indefinitely. There has been no change in the program.

## REALTY TRADING BEST SINCE 1912

Deals Involving 1,385 Parcels Brought \$4,800,000 During Month of July.

### ONE-DAY RECORD MADE

Wednesday's Business, Aggregating 173 Papers, Was Heaviest Ever Done on Any July Day.

The largest volume of mid-summer realty trading since 1912 was established in the District during July, a total of 581 transactions being effected. These deals involved 1,385 parcels of real estate and an aggregate purchase sum of \$4,800,000. In July, 1914, only \$3,510,000 was expended for real estate and in July, 1913, \$4,710,000. The record in trading in July, 1912, however, \$6,287,000 passed between brokers in realty deals.

A new mark for a single day's record was set during the past month. Acting Recorder of Deeds Dutton, receiving 173 papers for filing on Wednesday of last week. The next highest record for a July day was 138 papers in July, 1911. Only once in the history of the city has Wednesday's trading been surpassed, that being November 30 last, when 226 papers were filed.

**Friday Was Best Day.**  
Brokers closed 147 transactions during the last week of July, in which figured 633 parcels. Friday led the week for the number of sales effected. Twenty-three Monday was second with thirty-one. Twenty-seven were recorded on Tuesday, and Saturday and Wednesday were tied with twenty-one. Only fourteen sales were recorded Thursday.

With nearly 500 lots changing hands, the suburbs again led the market. Fifty-one lots were sold in the near-urban sections. Within the city, the northwest section led with thirty-nine sales. The week witnessed a boom in the southeast where thirty-five deals were closed.

In the southwest twelve lots were sold, and in the northeast nine changed hands. The feature of the week was the sale of the old Haymarket tract of 188 acres on the east side of the Anacostia River to the Columbia Co-operative Corporation for \$175,000. Although parties concerned declined to discuss their plans, it is believed probable that the tract will be subdivided for the full market.

**Loan Market Active.**  
The property at 1225 to 1229 Kenyon was sold by Charles W. Barbee to Minnie E. Messick. The revenue stamps indicated the price to have been \$36,000. Robert H. Featherstone acquired from John C. Cook and others the business property at 1901 to 1903 Fourteenth street northwest. The price paid was slightly more than \$24,000.

For a consideration of \$30,000, Samuel Goldenberg and Charles R. Moran, as trustees, sold to William J. Brower, the property at 202-204 F street northwest, a 30-story building, the site of the old Federal Reserve Bank building. A. M. Adams acquired the Senate apartment house, Second street near Maryland avenue northeast, from Silas A. Manuel for about \$17,500.

The J. A. Loeffler Sausage and Provision Company and the T. T. Keane Company entered into an agreement with the Abattoir on Benning road. The latter firm will continue to occupy the property.

The loan market also was active, passing the million mark. The exact figures for the week were \$1,021,824.54. This sum was secured on 45 lots at an average interest rate of 10 per cent. aggregate of \$781,500.30 was made in straight loans. The sum of all the notes given for deferred purchase money was \$18,000.34. Building associations advanced to members \$72,600.

**WAR BOOSTS EVEN HAIRPINS.**  
Chicago, July 31.—The impetus which the European war has given to the steel and iron industries is passing over to the hairpin industry. The hairpin industry in Chicago, which formerly supplied the world with most of the millions of hairpins it uses daily, are making bombs, have practically created a new industry in Chicago, an instance of the far-reaching effects of the boom in steel.

## WORKING ON NAVAL RESERVE. Department Getting in Touch with Men Who Have Been in Service.

In connection with the naval reserve act passed by the last Congress, the Navy Department is continuing its efforts to get in touch with men now in civil life who have had service in the navy.

For months the department has been sending out letters to these men, whenever their addresses could be obtained, asking them as to their willingness to join the reserve at once, and also, whether, if not willing to join the reserve they would be willing to serve in the navy in time of war.

Many favorable replies have been received to these inquiries. It is expected that more rapid progress will be made in the next few months, as not until recently has the naval reserve act been wholly made clear by decisions of the law officers of the government.

## Constipation Headache Dr. Chase's Liver Tablets

Make the liver active, bowels regular without pain or griping, relieve the blood and clear the complexion. Large bottles, 50c. and 25c. Also, Dr. Chase Co., 224 N. 10th St., Philadelphia, Pa.
